Geological Road Marker #49: Medicine Rocks State Park, Photographer Kristi DuBois

100003RoadBookMark.indd   1   3/12/10   3:

First Lady Nancy Schweitzer invites you to learn about the geology outside your car window! Use this bookmark with the Roadside Geological Marker Map. As you travel across the state, use the dinosaur stencil to mark off each roadside geology marker you stop at. Want to get to the next one? Measure the distance in miles with the ruler.
